Superior technology for all your patients

User profiles	Models	Oticon hearing solutions
 DEMAND THE BEST - Adults with mild-to-severe hearing loss - Want the best sound quality and performance in difficult listening environments	 Oticon Reveal™  Oticon Intent™  Oticon Verit™	Our selection of premium products takes BrainHearing™ technology to the next level by incorporating our always on AI technology to deliver understanding in noisy environments with less listening efforts.
 IN-THE-EAR: NXT - Adults with mild-to-severe hearing loss - Looking for a highly discreet solution without compromising on technology	 Oticon Zeal™	The first hearing aid to do it all - unseen. Oticon Zeal offers patients a discreet solution with AI sound processing, connectivity, rechargeability, and flexible fitting options.
 IN-THE-EAR: CUSTOM - Adults with mild-to-severe hearing loss - Want an in-the-ear solution with superior sound quality and ultimate discreetness	 Oticon Own SI™  Oticon Own™	Our selection of discreet custom hearing aids includes AI sound processing to provide patients all day support. Our solutions are available in a variety of hearing aid families, styles, and performance levels to meet the needs of a broad range of patients.
 EVERYDAY ESSENTIAL - Adults with mild-to-severe hearing loss - Want good performance and are more cost conscious about their hearing solutions	 Oticon Jet PX	The world's first essential level hearing aid with AI sound processing to provide all-day support in every situation.
 PEDIATRICS - Ages 0-21 with mild-to-profound hearing loss - Require hearing solutions specifically designed to meet their unique requirements	 Oticon Play SI™  Oticon Xceed Play	Our hearing solutions for children and teens help them grow, thrive, and learn by providing better conditions to meet their developmental needs.
 POWER - Adults with severe-to-profound hearing loss - Require additional power in their hearing solutions	 Oticon Xceed	The world's most powerful hearing aid gives your patients access to more speech than ever before, to help reduce the listening effort this patient population struggles with each day.
 SINGLE-SIDED DEAFNESS - Adults and children with single-sided deafness - Want a fuller, more immersive sound experience	 Oticon CROS RE  Oticon CROS PX  Oticon CROS	This is the world's first CROS/BiCROS solution that supports speech awareness and wireless streaming at the same time, providing a revolutionary sound experience for patients with single-sided deafness.
