

OTICON | Intent

Oticon Intent™ Now better than ever.

With groundbreaking new connectivity innovations and a sleek new powerful style, Oticon Intent ensures your patients can engage in life like never before. Your patients deserve it all – performance, style, modern connectivity and simplicity.

More connections, more styles, more possibilities

Step into the future of hearing care – Oticon Intent unleashes expanded, modern connectivity with Bluetooth® LE Audio. Now more of your patients can enjoy a seamless, world-class streaming experience that keeps them connected to what matters most.

Just tap,
connect,
and go!

The world's first hearing aid with Fast Pair

Oticon Intent now instantly pairs with Android™ devices via Bluetooth LE Audio – no hassle, no waiting. Just tap, connect, and go!

Fast Pair enables:

- **Effortless onboarding:** Patients can pair their hearing aids in seconds, slashing setup time and eliminating frustration.
- **Less troubleshooting, more hearing care:** Simplified connectivity with automatic syncing across devices means you'll spend less time on connectivity and more time focusing on what truly matters – your patients' hearing.

Ready for tomorrow: Oticon Intent is future-proof and built to embrace emerging technologies like Auracast™ broadcast audio and beyond.

The world's smallest miniBTE powerhouse to combine two fitting levels

Unlock more possibilities for more patients with the all-new Oticon miniBTE R style. This discreet yet mighty device offers advanced technology and dual fitting levels, giving you the flexibility to fit a wider range of users with ease. Its sleek, compact design adapts seamlessly to every individual's unique needs, delivering powerful performance, personalized comfort, and confidence in every moment.

Pulsing LED light

An active, optional indicator makes it easier to see the hearing aid's status

Size 13 lithium-ion battery

A powerful battery allowing for a full day of use* without compromising on size

Double push-button

Provides tactile feedback when pressed and offers quick, easy, and intuitive hearing aid control

Bluetooth® LE Audio gives Oticon Intent future-proof, next-generation connectivity, including compatibility with Auracast™ broadcast audio**

Flexible fittings

Oticon Intent miniBTE R is the world's first miniBTE to combine two fitting levels (85 and 105) in one, allowing more flexibility in fittings

Experience next-level hearing care without compromise

Experience the next level of hearing care with the upgraded Oticon Intent – powered by advanced, sensor-driven BrainHearing™ technology and second-generation AI sound processing. Give your patients the clarity, comfort, and seamless connectivity they deserve. **No trade-offs, no limits, no compromises.**
