Let every moment
sparkle

oticon
life-changing technology

Empowering children to
**participate in every
moment**

Every moment is filled with important sounds that help your child participate, spark their imagination, and help them grow. That's why we're here to support their hearing journey. With the right hearing support, we can let every moment sparkle.

Oticon Play SI™ hearing aids are built with incredible new technology that helps children with hearing loss participate and engage without limitations.

Only our best for our smallest ears

AI sound processing for clarity

Helps your child participate and engage fully by providing clear sound and exceptional speech clarity – even in noisy classrooms and playgrounds.

Protection from disruptive sounds

Advanced technology reduces wind noise and carefully manages sudden sounds, such as slamming doors, so that they're heard without being disruptive.

Connects to their favorite devices

Seamless, future-proof connectivity with smartphones, tablets, and computers enables direct audio streaming and hands-free calls.* It is also a perfect match with EduMic, which works as a remote microphone in learning environments.

Built for peace of mind

Oticon Play SI is reliable, safe for children, and built to last – so you can rest assured that it won't let you down.

Two new pediatric styles

miniRITE R

miniBTE R

* Available on select devices. For more information, please visit oticon.com/support/compatibility-guide

Made to support
developing minds

Did you know that hearing happens in the brain?

That's why children with hearing loss need the best sound quality possible. Developing brains need access to all relevant sounds. When sounds are missing, their brains need to work harder to fill in the gaps. This can lead to fatigue and reduced concentration.*

Backed by decades of research, our BrainHearing™ technology in Oticon Play SI ensures your child's brain receives the clearest sound and a natural listening experience – helping them make sense of sounds more easily.

Oticon
BrainHearing™
Technology

Let your child connect with their digital world

Oticon Play SI gives children a hearing solution that connects seamlessly to smartphones, tablets, and computers. This means they can enjoy high-quality streaming and hands-free calls via Bluetooth® from their favorite device.*

Ready for the future

Auracast™ broadcast audio is the future of broadcasting technology for children and adults with hearing loss in spaces such as classrooms, cinemas, and beyond.

Ready to learn with EduMic

EduMic works together with Oticon Play SI to serve as a remote microphone for teachers and support staff in learning environments.

EduMic helps children in classrooms easily hear their teacher's voice

Intuitive controls and more personalization

The Oticon Companion app helps your child get the most out of their hearing aids – giving you or them the option to discreetly control and personalize their hearing experience anywhere.

You or your child can adjust the volume, change listening programs, check the battery status, connect to Auracast broadcasts, and find the hearing aids if they're misplaced.

Made for
iPhone | iPad

Works with
Android

App Store

GET IT ON
Google Play

Hearing aids are paired with your iPhone®, not directly with the Apple Watch®. Apple Watch acts as a remote control via the Oticon Companion app. Apple, the Apple logo, iPhone, iPad®, Apple Vision Pro™, Apple Watch, Mac® and the Mac logo are trademarks of Apple Inc., registered in the U.S. and other countries. App Store is a service mark of Apple Inc. Android, Google Play, and the Google Play logo are trademarks of Google LLC. The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. The Auracast™ word mark and logos are trademarks owned by the Bluetooth SIG. Any use of such marks by Demant is under license. Other trademarks and trade names are those of their respective owners.

Easy LE Adapter More ways to connect

The Easy LE Adapter plugs easily into devices with a USB-C port and instantly upgrades it for seamless, high-quality streaming and hands-free calls via next-generation Bluetooth® LE Audio – using their hearing aids like a headset. It works with most smartphones, tablets, computers, and gaming devices with a USB-C port.*

* Most phones and tablets with a 3.5 mm audio jack will not work with the adapter, as many manufacturers choose to route the audio through the audio jack rather than the USB-C.

The Easy LE Adapter has been manufactured by Minami Acoustics Limited

Power for every moment

Your child can get a full day of hearing with just one hour of charging. For eight hours of use, just place the hearing aids in the charger for 30 minutes.*

Reliable charging, wherever you go

Charge up the hearing aids quickly with either the desk charger or the portable SmartCharger. The SmartCharger also doubles as a protective case – and provides multiple charges – even if you're away on vacation and don't always have access to a power outlet.

* Expected use time for rechargeable battery depends on use pattern, active feature set, hearing loss, sound environment, battery age, and use of wireless accessories.

Built for **their world**

Oticon Play SI is ready to meet the active lifestyle of your child in every sparkling moment.

Tamper-resistant design

Built to stand up to active young lives. Both styles have sealed batteries for safety.

IP68-certified

An IP68 rating for water and dust protection ensures that the electrical components inside the hearing aid are protected – so you have peace of mind.

LED light

A light gives you visual confirmation that the hearing aid is working properly.

Safe for children

Meets international safety and biocompatibility standards. The hearing aids and stickers are free from allergens and phthalates, and they're tested for all-day skin contact.

Styles your child will love

Oticon Play SI is available in two rechargeable styles. Both styles cover a wide range of hearing loss. With twelve color options, plus 7 colored hook options for the miniBTE R style – and fun stickers – your child's sparkling personality will shine bright.
