

OTICON | Zeal

The first hearing aid to do it all - unseen

A unique offering that combines discreet size with a complete package of features and functionalities, Oticon Zeal™ is set to redefine in-the-ear hearing aids.

Discreet

Designed to sit discreetly in the ear

AI sound processing

Exceptional sound quality from second-generation AI-driven technology

Connectivity

Helps patients connect to their favorite devices seamlessly

Rechargeable

Offering a full day's charge, to keep your patients going all day*

Flexible fitting with same-day option

Flexible fitting options that easily integrate into your clinic, including same-day fitting so users can get immediate benefits

Designed with your patients and your clinic's success in mind, Oticon Zeal gives you:

- 1 The world's most discreet, complete hearing aid**
With the discreetness and functionality patients want and the audiology they need
- 2 The opportunity to attract more patients**
Especially new users who are hesitant or unwilling to compromise
- 3 The power to drive patient satisfaction**
A complete, patient-focused solution with same-day fitting options for immediate hearing benefits.

* Expected use time for rechargeable battery depends on use pattern, active feature set, hearing loss, sound environment, battery age, and use of wireless accessories.
