[1] IP68 indicates that the hearing aid is water and dust resistant. It survived continuous immersion in 1 meter of fresh water for 60 minutes and 8 hours in a dust chamber as per the IEC60529 standard.
[2] Actual charging time depends on the remaining battery life, but it will not exceed 3 hours.
[3] For high security environments such as SCIF.

Sonite Rise Charger Go

The Sonite Rise Charger Go is a compact, durable charging solution featuring magnetic charging slots for easy device placement and a USB-C port with power indicator. Its built-in battery enables on-the-go charging. When it is fully charged, the Charger Go will supply three additional full chargers to hearing instruments without being plugged into an outlet.

Sonite Rise Bluetooth® versions

Direct calls / audio streaming	Bluetooth® Classic Audio and most older Bluetooth® phones

Compatible wireless communication portfolio
