Enjoy future-proof connectivity

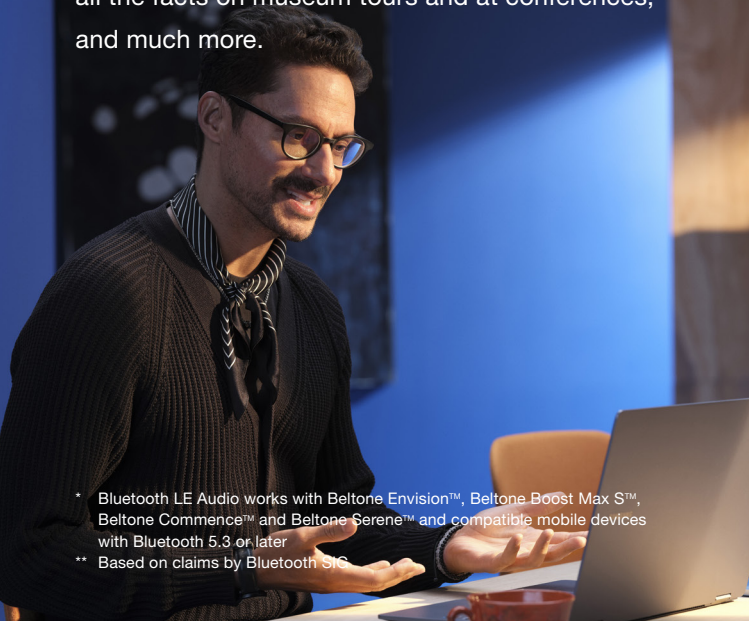

Stay connected to people, news and entertainment wherever you are with Beltone hearing aids.

Effortlessly start streaming

Listen to what you want anywhere with Bluetooth® Low Energy (LE) Audio*, the clearest Bluetooth experience ever, including low battery usage and a reliable connection for all-day streaming.**

Join Auracast™ experiences

You can tune into Auracast broadcast audio on the go and hear it all in your hearing aids. Listen to silent TVs in waiting rooms or gyms, service announcements at travel hubs and public places, all the facts on museum tours and at conferences, and much more.

* Bluetooth LE Audio works with Beltone Envision™, Beltone Boost Max S™, Beltone Commence™ and Beltone Serene™ and compatible mobile devices with Bluetooth 5.3 or later

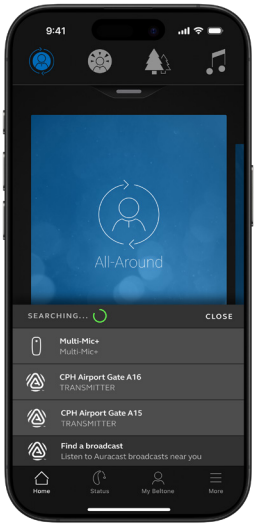

** Based on claims by Bluetooth SIG

Auracast for All

Use the world's first Auracast Assistant for hearing aids*, available in the Beltone HearMax™ app, to connect to Auracast broadcasts with a tap! It's easy to find and hear the audio streams, as well as share your own streams with a larger group.

How it works

1. Click on "Find a broadcast"
2. Choose an Auracast broadcast from the list
3. Enjoy sound directly streamed to your hearing aids

* Auracast Assistant works with Beltone Envision, Beltone Boost Max S, Beltone Commence and Beltone Serene

Control at your fingertips

Take control of your hearing aids when you need it for instant hearing clarity and comfort – even in noisy situations, you can easily focus on conversations.

Beltone HearMax app

Use the Beltone HearMax app on your mobile device to take control of your hearing aids and adjust volume or change programs to focus on what you want to hear.

Remote Control

At the touch of a button, the Remote Control gives you intuitive control over volume and program settings.

Remote Control

Multi-Mic+ zooms in on speech

Place the Multi-Mic+ on a table when you want to hear many people equally or clip it onto the clothing of a conversation partner or a presenter. The audio is streamed to your hearing aids* and you can still hear all the sounds around you.

The world's first remote mic with Auracast

The Multi-Mic+ offers the future of connectivity, now. Use it to start an Auracast stream, which you can share with a larger group.

* Compatible with Beltone Envision, Beltone Boost Max S, Beltone Commence and Beltone Serene hearing aids

Improve **TV time**

In challenging listening situations, like watching TV with your family, it's great to have a little extra help.

TV-Streamer+

Get immediate speech clarity by streaming the sound from the TV to your ears at your preferred volume. The TV-Streamer+* connects easily and supports Auracast. If there are others with you who have Auracast enabled devices, they can also connect to the TV-Streamer+ and enjoy the sound with you.

TV Link 2

Get the sound straight to your hearing aids with the TV Link 2 for clear audio at the preferred volume.

TV-Streamer+

TV Link 2

* TV-Streamer+ is compatible with Beltone Envision, Beltone Boost Max S, Beltone Commence and Beltone Serene

Seamless streaming

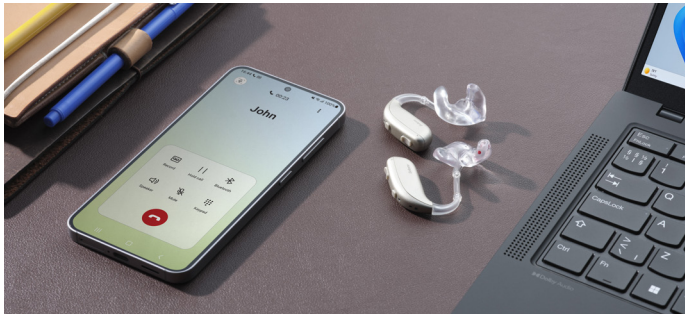

Enjoy streaming tailored to your needs with flexible solutions.

Hands-free calls

Experience easy call pick-up with a double tap* to the hearing aid for hands-free calls from iPhone, iPad and compatible Android™ mobile devices.**

Boost streaming

Seamlessly switch between devices with MultiConnect***. It pairs two smart devices at once for uninterrupted streaming, like taking a call while streaming from a laptop.

Made for iPhone | iPad | iPod

Works with Android

* TapControl works with hands-free calls. Only available with Beltone Envision microRIE, Beltone Boost Max S and Beltone Serene microRIE

** Hands-free calls works with Beltone Envision, Beltone Boost Max S, Beltone Commence, Beltone Serene and Beltone Achieve™ and are compatible with iPhone 11 or later, iPad Pro 12.9-inch (5th generation), iPad Pro 11-inch (3rd generation), iPad Air (4th generation), iPad mini (6th generation), iPad (10th generation) or later, with software updates iOS 15.3 and iPad OS 15.3 or later. Bluetooth LE Audio works with Beltone Envision, Beltone Boost Max S, Beltone Commence, Beltone Serene and Beltone Achieve™ and compatible mobile devices with Bluetooth 5.3 or later. See compatibility on beltone.com/compatibility.

*** Only available with Beltone Envision microRIE and Beltone Boost Max S
