For professionals

ReSound GN

ReSound Savi™

Clear sound and connectivity for everyone

GN Bringing People Closer

Best-in-class solutions – now with Customs

Adapting to new hearing aids is challenging for users[1] – let's make it easier. With the extended ReSound Savi range, you can unlock greater hearing clarity, comfort and connectivity for more clients.

Small, sleek and packed with proven technologies, our designs deliver effective performance for mild to profound hearing loss.

Introducing Customs

The ReSound Savi Customs represent our biggest upgrade of sound features, wearing comfort and Bluetooth® connectivity* since our previous generation. Offer the first Essential wireless ITC hearing aids to connect to Auracast™ as well as a non-wireless CIC model, both starting from tech level 2.

Environmental Optimizer
Automatically adapts to changing environments

Binaural Directionality III
Great hearing clarity all day**

Impulse Noise Reduction
Greater listening comfort[2]

DFS Ultra III
The world's best feedback management[3]

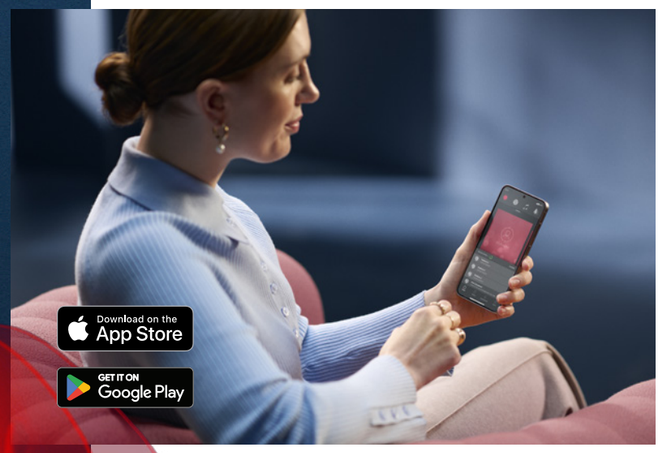

Best-in-class connectivity
Bluetooth LE Audio and Auracast***

Style, comfort and durability

Deliver best-in-class wearing comfort[4] in tiny, all-weatherproof**** designs, such as the first miniRIE in the Essentials category.[5]

Our rechargeable and battery-type hearing aids give all-day battery power even when streaming[6] – and have exchangeable mic filters* to give you more control over care and maintenance.

Incredible connectivity

Give your clients best-in-class Bluetooth connectivity with the world's first Essential hearing aids – including an ITC Custom – to connect to Bluetooth LE Audio and Auracast broadcast audio. Using ReSound Savi and the Auracast Assistant in the award-winning ReSound Smart 3D™ app*, your clients can connect to Auracast broadcasts with a tap and seamlessly connect their devices.[5]

AURACAST
A BLUETOOTH® TECHNOLOGY

Elevated fitting experiences

We're introducing a new lineup of AllFit domes, designed for the best comfort and acoustic performance, so you can tailor the fit to at least 97% of ear types and sizes.[5] Not only that, ReSound Smart Fit™ will be the world's first fitting software supporting NAL-NL3™, and we have made it easy to showcase benefits with our flex demo devices.**
