Beltone **Amaze™**

The most complete premium hearing care solution now including a full family of hearing aids

Make every day a little more amazing for your clients

Every day is filled with special moments that make our lives truly amazing. Every word, giggle or sound counts for something. Beltone Amaze ensures your clients won't miss a single one of those amazing moments. And we will be right beside you every step of the way as you help your clients experience their best possible hearing.

A hearing home run

Beltone Amaze offers your clients the industry's most comprehensive and finest product. The latest sound processing chip built into Beltone Amaze is the result of years of innovation. Under the new platform, Beltone Amaze combines great sound quality, connectivity, rechargeability and complete remote fine-tuning in one product to give your clients an amazing hearing experience with a fuller, clearer, and richer sound. Your clients can tap into excellent connectivity for crystal-clear streaming and personalized control and take advantage of rechargeability that frees them from batteries and keeps them going all day on a single charge.

Welcome to the world of Beltone Amaze.

*Only Beltone Amaze RIE 63

Amazingly **natural sound**

A clearer, fuller and richer sound experience

Illuminating every word, note and tone

Beltone Amaze brings a much broader range of sounds into the listening spectrum. Now your clients can hear all of life's beautiful and delicate sounds, from a grandchild's exciting story, a quick joke in a busy restaurant to birds singing in the distance. They can experience more action, thrills and adventure when watching movies. And, for your clients who are music or theater lovers, Beltone Amaze embellishes live performances and makes these experiences deeper and more fulfilling.

Remarkably enriched audio

Our industry-leading **CrossLink Directionality 2** with **Personal Sound ID** paired with extended bandwidth (up to 9.5 kHz) offers your clients an unparalleled speech recognition and provide more auditory cues and information for a clearer, fuller and richer listening experience. Conversations and ambient noise can now co-exist in a natural space. Additionally, Beltone Amaze's **Impulse Noise Reduction** adjusts sudden loud noises, so your clients can experience them at a more comfortable level.

Lusher, more textured music

Equipped with the highest dynamic range in the industry (up to 116 dB), Beltone Amaze is able to receive and process sound at the highest input without limitation or distortion, giving your clients a more natural and textured musical experience.

Music – a proofpoint for sound quality

Listening to music puts a hearing aid to the ultimate test. We decided to see how music would sound through Beltone Amaze and compare to other premium hearing aids. Results of the blind test were overwhelmingly positive:

95% **of test participants preferred Beltone Amaze for music listening over other premium hearing aids.***

*Jespersen et al, 2018.

NEXT LEVEL SOUND QUALITY

Beltone Amaze is packed with cutting-edge features that set new standards for sound quality and situational awareness. Use this video to demonstrate the sound quality of Beltone Amaze to your clients.

Amazingly **versatile**

A new level of sound quality on the enriched new platform

A new high-performance platform

Beltone Amaze takes sound quality to a new level. The new processor in Beltone Amaze underwent a complete redesign from previous generations. The result is truly amazing – the new processor has double the speed and memory, 30% more computing power, a new radio with up to 5 dB higher sensitivity for better Ear-to-Ear functionality, and is 25% more power efficient when streaming. The platform allows all features in Beltone Amaze to work their best to create a versatile, balanced sound experience for a user.

Coordinated technologies for best sound experience

Now your clients can enjoy a crowded party or hear a softer conversation in a quiet room comfortably and with ease. **Smart Gain Pro**™ automatically adjusts gain to changes in the sound environment. At the same time, **Feedback Eraser**™ with **Whistlestop**™ cancels feedback with no loss of sound quality and eliminates the whistling for a purer, clearer sound experience.

Ear-to-Ear Synchronization monitors your clients' auditory environments and coordinates the ears, making it more comfortable to go from quiet environments to noisy ones. Last, but not least, Beltone's industry-leading **Environmental Classifier** is able to accurately identify the listening environment better than any premium competitor. It automatically adjusts the hearing aids to the prescribed settings, giving the user an unparalleled speech recognition in any situation.

Amazingly **connected**

Excellent streaming quality and easy control

Enhanced sound experience during streaming

The extended bandwidth in Beltone Amaze will let your clients experience a new level of sound quality when streaming directly or through wireless accessories. A favorite melody will now sound richer and fuller than ever before. In fact, whether users are streaming directly or through wireless accessories, they overwhelmingly prefer Beltone Amaze compared to competitor wireless hearing aids.*

When comparing sound quality to competitor hearing aids for TV streaming, listeners preferred Beltone Amaze 71% of the time

When comparing to competitor hearing aids that stream from iPhone, listeners chose the sound quality of Beltone Amaze 64% of the time

Empowering personal control

Beltone Amaze users can easily control their hearing aids remotely with the Beltone HearMax™ app. With a few simple taps on the app, your clients can discreetly adjust their hearing aids directly from their iPhone, iPad, iPod touch, Apple Watch or Android device.

Your clients will feel empowered and more satisfied with their hearing experience when they control their hearing aids with the Beltone HearMax app. In fact, a Beltone study showed that clients who use the HearMax app are on average 10% more satisfied with their hearing aids than those who don't use the app. Take a moment to show your clients how easy it is to check battery status and adjust programs and volume on the app, and how enabling it is to have control at your fingertips to quickly change the speech focus, noise and wind filters.

Amazingly **personalized care**

Give your clients an extra level of care and service

Beltone Remote Care is a comprehensive fine-tuning service that you can offer your clients. It lets them request advanced fine-tunings from anywhere, between their scheduled visits, using the Beltone HearMax app. They save time, feel confident, and know they're in good hands wherever they go.

Improve the overall hearing aid experience

With Beltone Remote Care, you can ease the adaptation period and improve the overall hearing aid experience for your clients. You can also save them the time it requires to make a trip to the clinic for a fine-tuning. Beltone Remote Care gives you the opportunity to build a better dialogue and closer relationship with your clients. This can result in enhanced client loyalty, satisfaction and increased word-of-mouth referrals.

New Beltone Remote Care rating system

The Beltone Remote Care service includes a new rating system that lets clients give real-time feedback on your fine-tuning service.

A win-win for you and your clients

For Hearing Care Professionals who have used Beltone Remote Care for remote fine-tunings, the value is clear. Remote Care helps deliver a better user experience and enables an extra level of support and service.

87% **of HCPs agree that Beltone Remote Care service enables them to deliver the best fit within a shorter time frame***

94% **of HCPs believe Beltone Remote Care service helps their clients get a better hearing experience***

*Beltone Remote Care Study, 2018

Remote Care

Beltone Remote Care **is easy as 1-2-3**

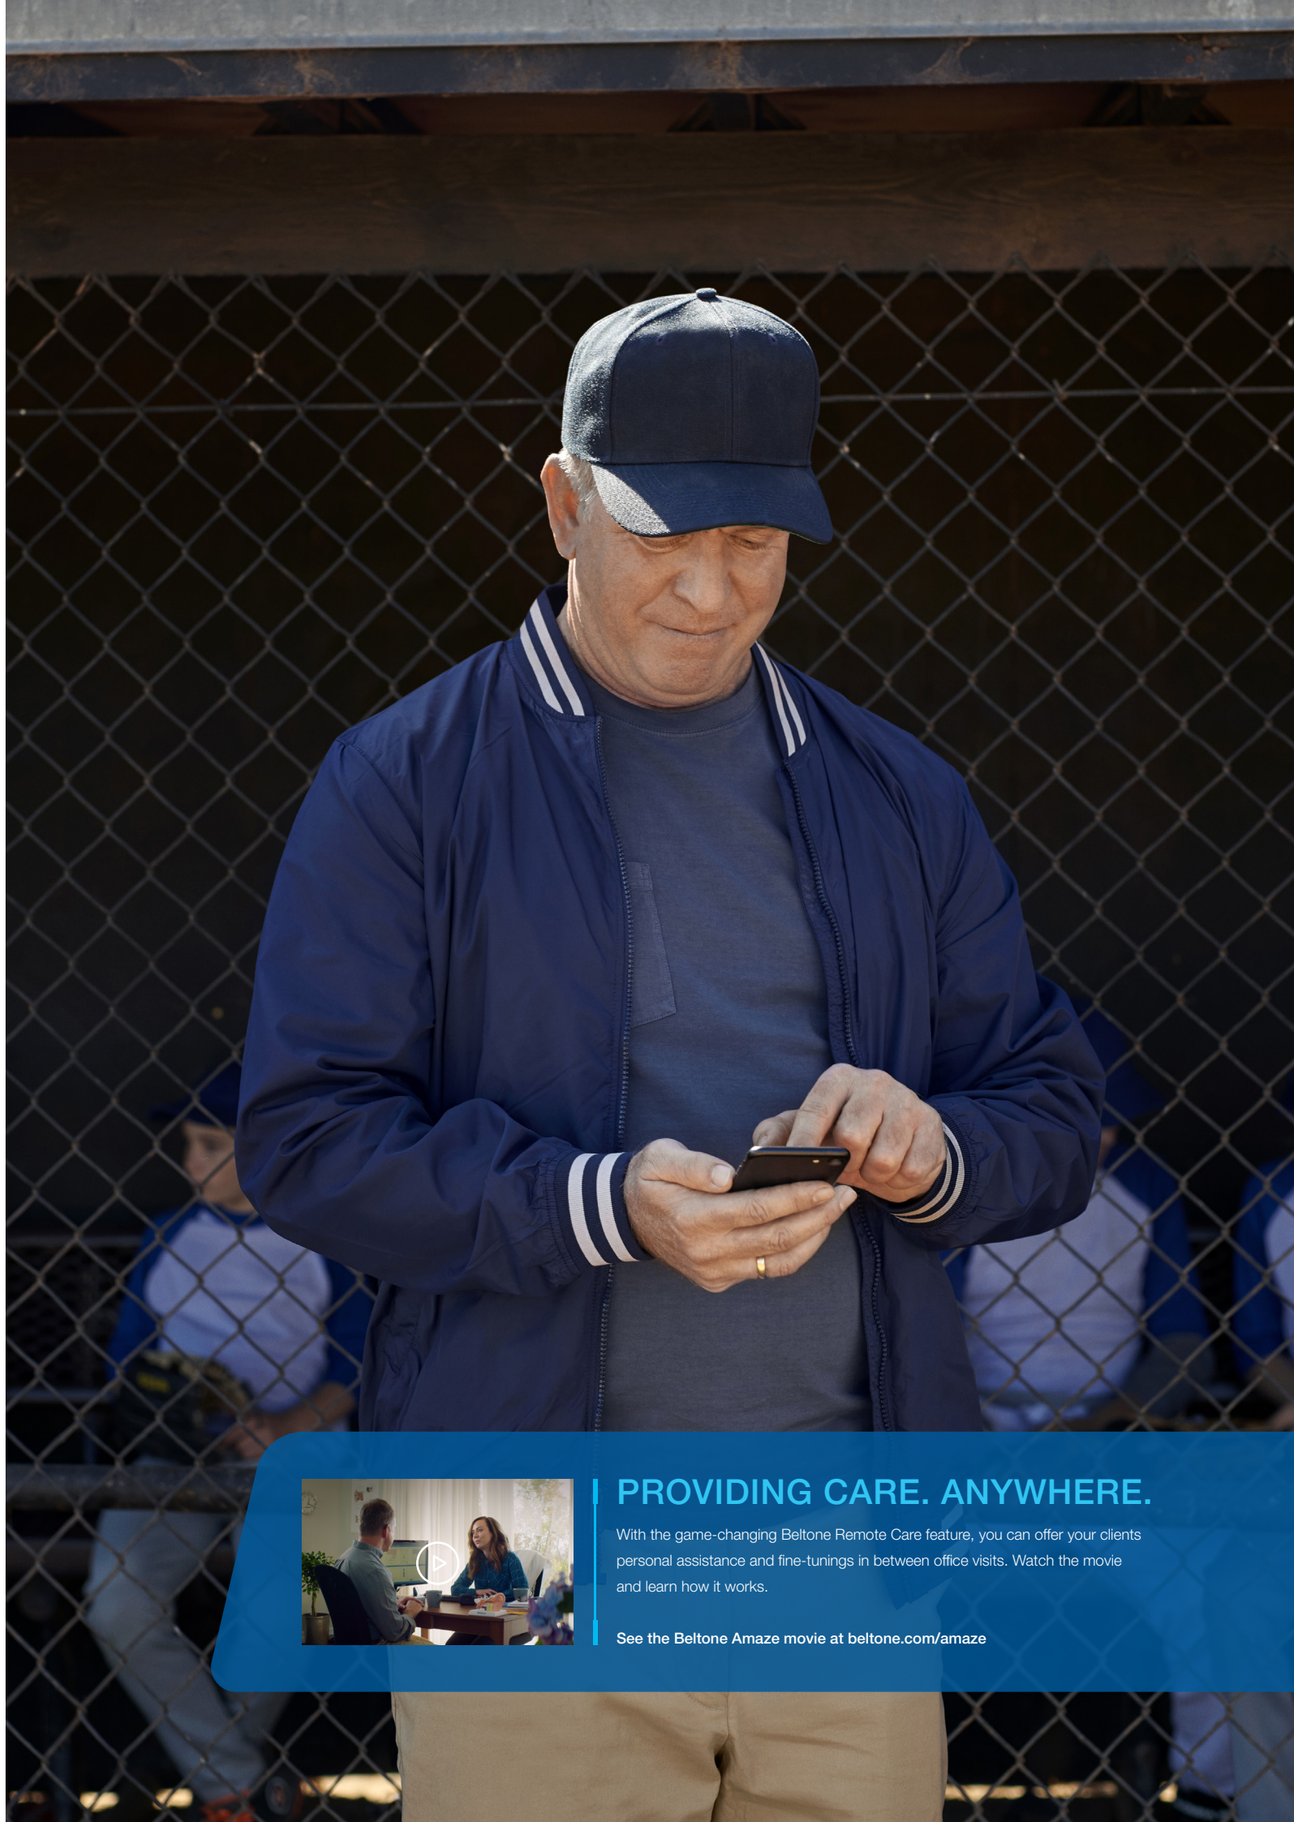

1 Client requests assistance via HearMax app.

2 You review, change and send new settings through Solus Max software.

3 Client receives and installs the update and can rate new settings in the app.

PROVIDING CARE. ANYWHERE.

With the game-changing Beltone Remote Care feature, you can offer your clients personal assistance and fine-tunings in between office visits. Watch the movie and learn how it works.

Amazingly **rechargeable**

Give your clients the freedom to charge into life

Make battery changes a thing of the past

Thanks to Beltone Amaze's integrated lithium-ion battery, your clients will no longer need to fiddle with traditional batteries. And with the most user-friendly and attractive portable charger in the industry, your clients will charge confidently into every day.

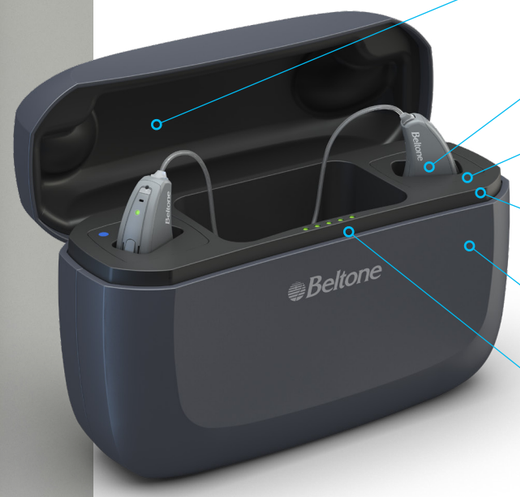

Up to 30 hours on one charge

Beltone Amaze features inductive charging, which empowers your clients to go for more than a day, up to 30 hours, on a single charge. They simply place their hearing aids in the charger overnight and put them on again, fully charged, in the morning. If your client forgets to charge the hearing aids overnight, in just 30 minutes of charging the hearing aids will get 8 hours of battery life – that's enough to last until the end of the day. Extremely durable, even after 4 years, Beltone Amaze will retain 80% of its charging capacity.

Elegant, portable charger and carrying case

The charger's incredibly intuitive and practical design will easy win over your clients. The LED indicators will effortlessly guide the user to show charging status, current battery level, and whether the hearing aids are properly inserted. The charger's life battery has an impressive capacity to carry enough power for 3 full charges without being plugged in, giving your client extra comfort and peace of mind.

Battery life	Charging required
30 hours	3 hours
16 hours	1 hour
8 hours	30 minutes

- Magnetic lid stays closed during transportation
- Charge 2 hearing aids simultaneously
- Functions as a carrying case, protecting the hearing aids during transportation
- Internal charger battery gives 3 full charges (when fully charged)
- Easy charging with a standard micro-USB cable
- LED lights show hearing aid battery level

*Only Beltone Amaze RIE 63

Amazingly **complete** fittings

An advanced fitting software and consultation tool

Beltone Solus Max™ fitting software
Beltone Solus Max fitting software offers a quicker, easier fitting process and ensures a comfortable, accurate fit – the first time around. Beltone Solus Max offers an intuitive, efficient fitting flow so you can focus on your patient's specific needs and deliver the best possible fitting experience.

Beltone Solus Max also empowers you to provide personalized fine-tunings with Remote Care. As a leader in innovation, Beltone was the first to introduce a complete cloud-based technology that allows you to perform a comprehensive remote fine-tunings for your patients. Wherever your patients are, you can help them get the most from their hearing aids, easing their adaptation process, building their trust and increasing their user satisfaction. That's a complete, first-class level of service your patients cannot find anywhere else.
