DANAVOX GN

Danavox Astro SP

Unlock a universe of powerful sound

Super Power solution available in Danavox Astro Pro and Danavox Astro Core families

GN Bringing People Closer

Powered by Intelligence Augmented™

Make an astronomical difference in all dimensions of your clients' lives.

Created for hearing in noise

Danavox Astro™ SP is a superstar solution with powerful sound, built on the successful foundation of our previous Super Power generation. Enable full environmental awareness while hearing speech clearly, without distractions, thanks to our powerful new upgrades:

- Industry-leading **Clear Focus** highlights speech in noisy environments.[1] For people with severe to profound hearing loss, this means a **2.7 dB SNR** improvement over legacy.[2]
- The **360 All-Around** feature gives greater access to surrounding sounds[1] – which is why there's a very strong preference for listening with this feature over legacy for Super Power hearing aid users.[2]

Created for best-in-class feedback suppression

With proven elimination of feedback, Danavox Astro SP ensures optimal performance without compromising on gain[3] to elevate moments that are important for your clients, such as conversations with loved ones.

Created to be the tiniest in class

Durability meets design with Danavox Astro SP – the smallest rechargeable Super Power hearing aids yet[4] – built for all-day comfort and ease of use.

- IP68-rated hearing aids fully nanocoated inside and out
- 28 hours' use on one full charge, and 20 hours when streaming 50% of the time[5]
- Exchangeable mic filters for in-clinic service

Created to connect to Bluetooth® LE Audio and Auracast™

The new Danavox Astro SP brings future-proof connectivity into Super Power hearing aids. Your clients can enjoy the clearest streamed sound by connecting with Bluetooth Low Energy (LE) Audio[6] and tune into new listening experiences with Auracast broadcast audio, wherever they are.

Easily access Auracast streams by using the Auracast Assistant with a simple tap in the BeMore™ app.

Pair Danavox Astro SP with two devices at once with MultiConnect for uninterrupted streaming.
