DANAVOX GN

Danavox Vega™

The power of AI. The calm of clarity.

Danavox Vega brings automatic clarity to everyday listening.

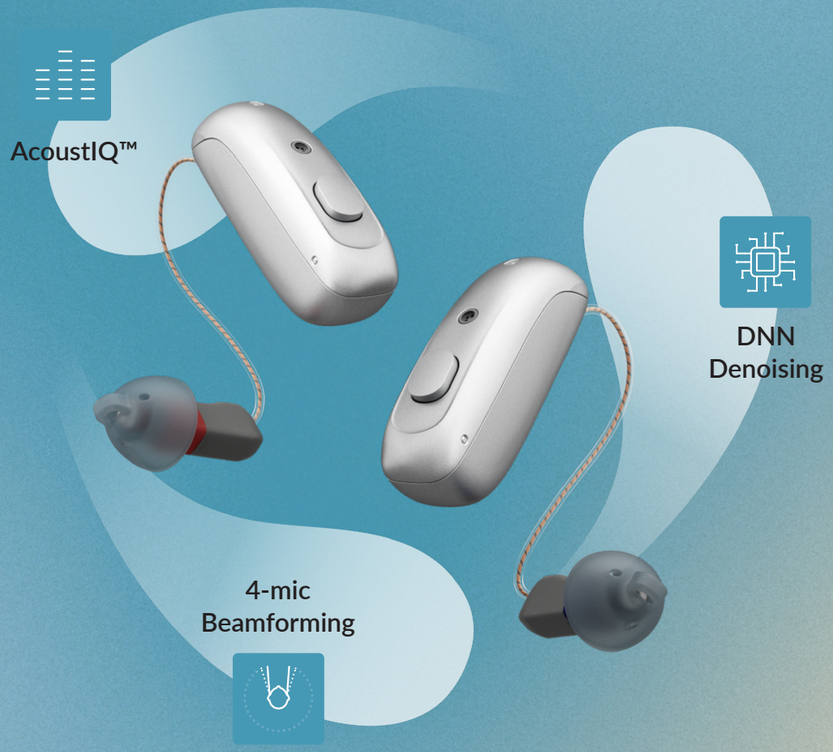

FOR PROFESSIONALS

Danavox Vega is designed for real life

Intelligent All-Around

Powered by a combination of intelligent real-time sound sensing, advanced 4-mic beamforming and automatic DNN noise reduction, Danavox Vega helps complex soundscapes fall into clearer balance[1] – so conversations come into focus when it matters most.[2]

AcoustIQ

Real-time intelligence that stays one step ahead

Intelligent sensing technology reacts the moment your surroundings change, so you experience consistent, comfortable clarity.

88% more accurate in real-time classification and feature engagement[3]

91% accuracy in classifying speech in noise[4]

4-mic Beamforming

AI focus that brings voices forward

An advanced 4-mic focus system locks onto the chosen talker, softening surrounding noise so speech remains easy to follow

13% SNR improvement compared to legacy[5]

DNN Denoising

Smarter sound, less listening effort

An automatic DNN recognises situations and adjusts in real time, helping your clients follow what's being said with less work.

Learn more about Danavox Vega

Small on the ear, big on performance

- Smallest rechargeable RIE with DNN – 6% smaller than the closest in size[7]
- 24 hours of battery – even with streaming and AI use[8]

Clarity that leads the way – in speech, streaming and music

- Clearest streamed sound with Bluetooth® LE Audio & Auracast™ Auracast™ broadcast audio – per Bluetooth SIG data[9]

AURACAST
A BLUETOOTH® TECHNOLOGY

Navigate every fitting with clarity and confidence

- Evidence-based fitting options, including NAL-NL3™, for confident, personalised decisions
- Streamlined fitting tools and software designed to reduce friction and support focus
- Practical design solutions, such as exchangeable mic filters, are built to maintain performance over time

Everything Danavox Vega delivers is tested with people, not just in the lab, and validated with external research partners[10]. What you experience in the clinic is what your clients experience in the real world.
